02 Aug 2023 - 02:05 PM

Discussion Forums

Start threads to discuss specific shipments or general logistics.

Stakeholder Engagement Portal

Connect with carriers, suppliers, and clients all in one place. Encourage real-time collaboration and accelerate resolution times with a suite of communication tools.

Alerts and Notifications

Stay updated with automatic alerts for new messages or updates on shared transactions.

02 Aug 2023 - 02:05 PM

Real-Time Adjustments

Make on-the-fly changes as retailer requirements evolve.

Activity Tracking

Keep an immutable record of all communications for accountability and traceability.

Modern & Intuitive UI / UX

The screenshot displays the AQUATIO dashboard interface. On the left is a navigation sidebar with sections for SHIPMENT, CONSIGNMENT, and CONFIGURATION. The main content area features a welcome message, a search bar, and three summary cards for Shipment Total (400), Shipment Need attention (200), and Shipment Unreleased (200). Below these are two donut charts comparing Active vs Shipped for Shipments (500 Shipped, 50 Active) and Consignments (100 Shipped, 5 Active). A right-hand panel shows a horizontal bar chart for shipment statuses: PRERELEASE (200), RELEASE (52), SHIPPING PENDING (100), and SHIPPED (95).
